

## LOCKER SERVICES

At the beginning of the year, every student has the opportunity to obtain a locker through his or her homeroom teacher or the office. All lockers and locks are "loaned" to the students but remain school property. The student is **responsible** for the locker and lock that are assigned at the beginning of the year. Personal locks are not permitted. Under no circumstances should students switch lockers or locks. Student lockers remain the property of the school and the school retains access to the lockers throughout the year. Any school locker may be opened when a school administration deems it necessary. **A replacement fee of \$10.00 will be charged to students who have lost their lock or a \$10.00 fee will be assessed to all students who have switched lockers during the school year.** There is no obligation to use a locker (which is school district property). If students choose to use a locker, they do so with certain conditions, including that the locker may only be used for school purposes, the student keeps the locker clean and removes any perishable items, and that the locker is at all times subject to search by school officials. Student lockers remain the property of the school and the school retains access to the lockers throughout the year.
